East High

Des Moines, Iowa

We are the seniors. We deserve to stand at the top because we have worked twelve long years to get where we are. They have been years of hard work and fun which have yielded many friends and countless memories. We now face the threshold of the future with uncertainty, expectation, and the spirit of adventure. You will face this threshold, too; so prepare for it now with work and planning.

Come back with us now as we review the past school year which has been filled with classes, activities, and sports.

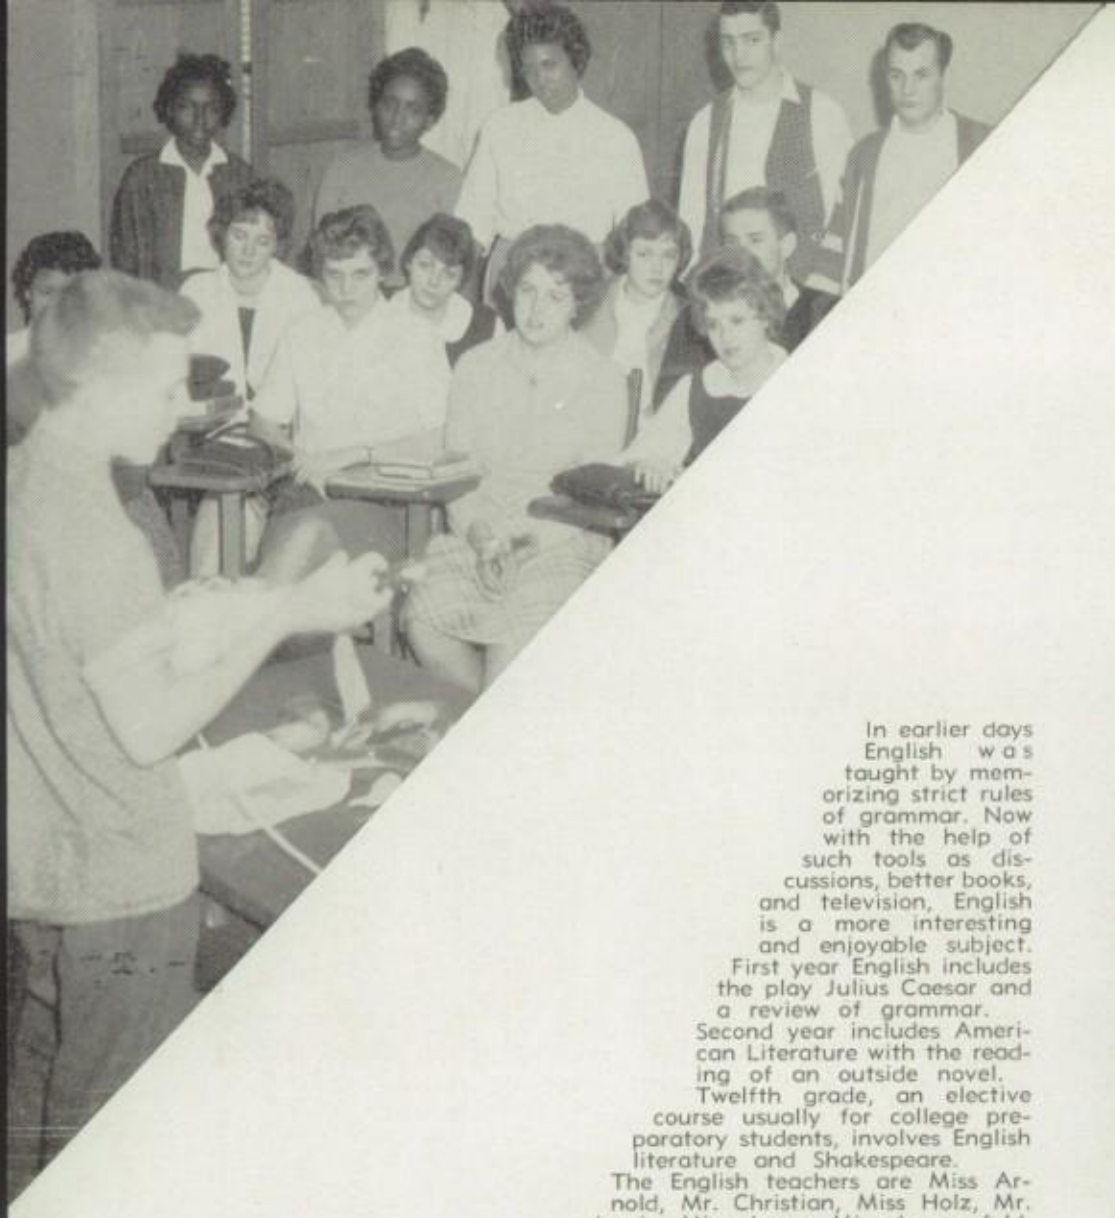
English Department



Reg Kepner is giving a demonstration about the china lamp he made and painted.

In earlier days English was taught by memorizing strict rules of grammar. Now with the help of such tools as discussions, better books, and television, English is a more interesting and enjoyable subject.

First year English includes the play Julius Caesar and a review of grammar.

Second year includes American Literature with the reading of an outside novel.

Twelfth grade, an elective course usually for college preparatory students, involves English literature and Shakespeare.

The English teachers are Miss Arnold, Mr. Christian, Miss Holz, Mr. Jarvis, Miss Jones, Miss Langenfeld, Miss McEniry, Mr. Oxenreider, Mr. Stratton, Miss Tennant, and Mr. Wittkop.

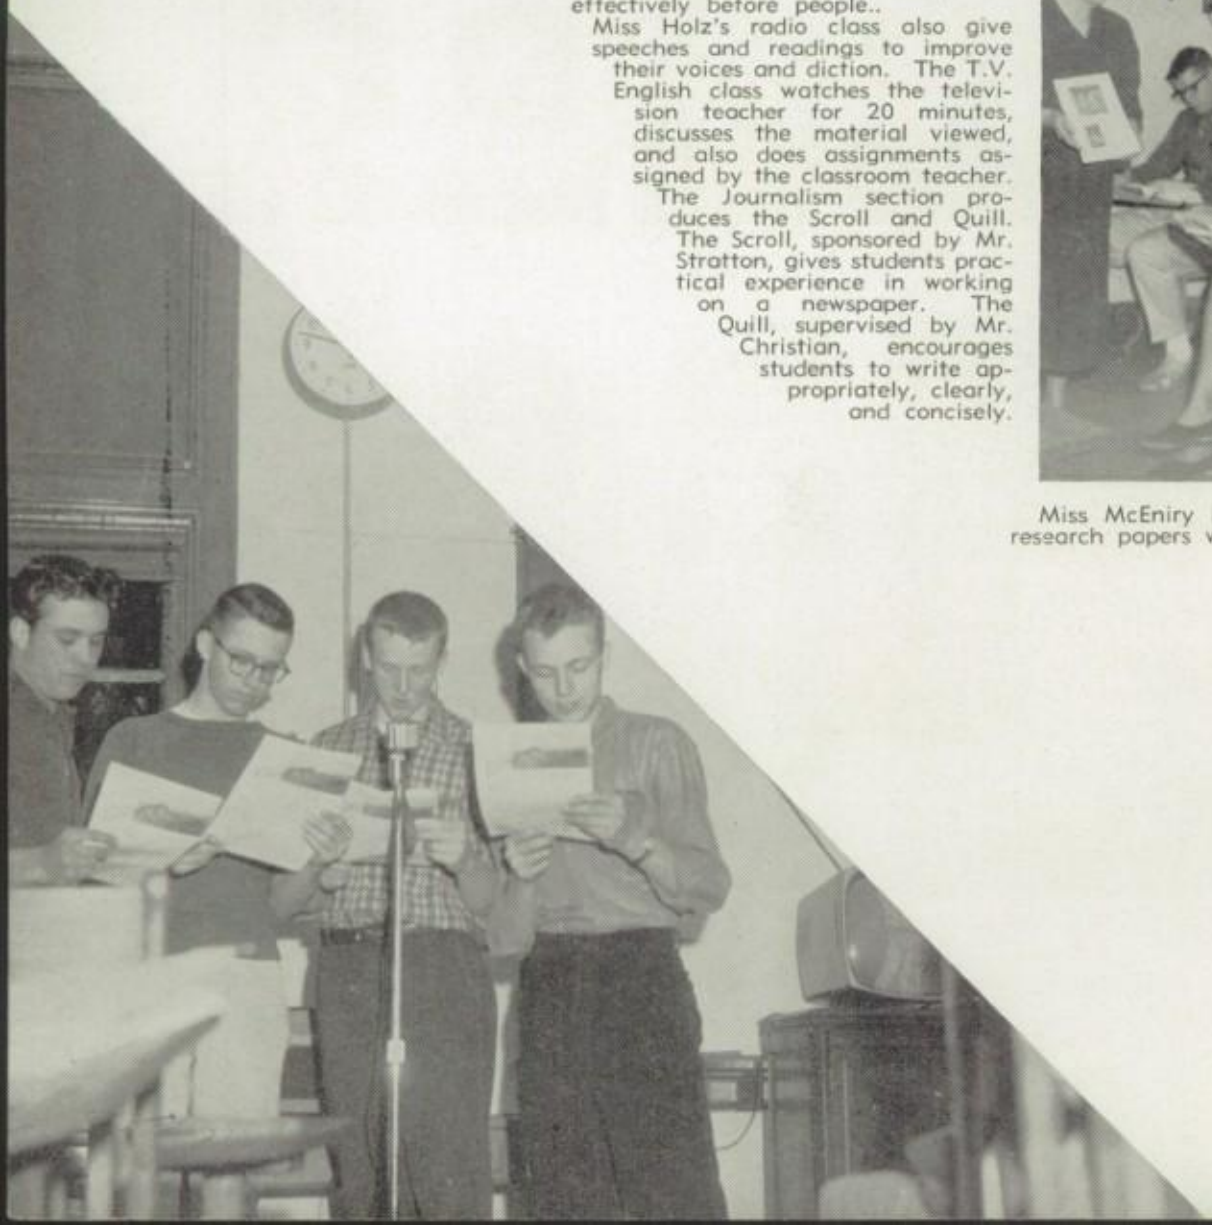
The T.V. English class are watching their television teacher explain the rules of grammar.

If students want to broaden their study of English, they can take speech or dramatics taught by Miss Whitford. Here they learn to speak distinctly and effectively before people..

Miss Holz's radio class also give speeches and readings to improve their voices and diction. The T.V. English class watches the television teacher for 20 minutes, discusses the material viewed, and also does assignments assigned by the classroom teacher.

The Journalism section produces the Scroll and Quill. The Scroll, sponsored by Mr. Stratton, gives students practical experience in working on a newspaper. The Quill, supervised by Mr. Christian, encourages students to write appropriately, clearly, and concisely.

Miss McEniry is showing her class one of the colorful covers on the research papers written about England this semester.



These boys in Miss Holz's radio class are practicing for the reading of "Oklahoma," in which all the class participated.

History Department

Mr. Neal, history teacher, is pointing out some of the trouble spots in the world today.

These students in Mr. Schakel's H8 class are checking the stock market and writing the results on the graph on the wall.

History is growing to be a more important subject as more students are taking an interest in the government of their country and the world around them. Films, debates, and outside reports are used to supplement the textbook material. World History, an elective course, is taught by Mr. Carlson, Mr. Savage, and Mr. Treman.
American history is taught by Mr. De Mouth, Mr. Savage, Mr. Schakel, Mr. Tannatt, and Mr. Treman.
U. S. Government and economics are taught by Mr. Gewerth, Mr. Gregory, Mr. Holm, Mr. Neal, and Mr. Schakel.

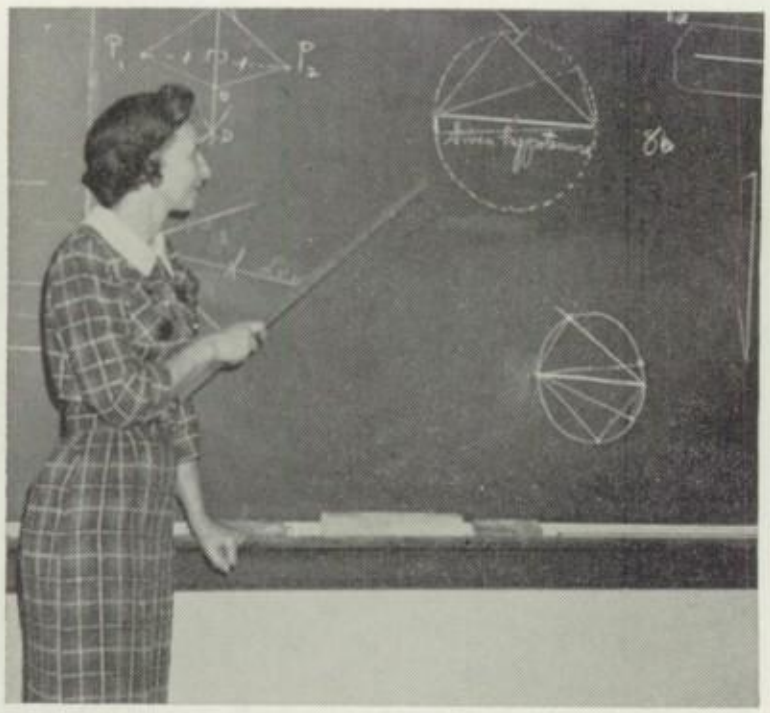
Miss Krueger's Spanish class is taping speeches and playing them back to correct their Spanish pronunciation.

In the language department there are also more modern methods of teaching. People who have visited a foreign country talk to the students about their experiences. In Mr. Dolan's French class a tape recorder is being used to record the students' presentation of a French play and then playing it back. The Spanish classes have a student teacher from Panama —this instruction gives the students practical experience in speaking Spanish.
The French teachers are Miss Brewer and Mr. Dolan. The Latin teachers are Mrs. Erickson and Mr. Dolan. The Spanish teacher is Miss Krueger.

Students in Mr. Dolan's French class are reading a play into the tape recorder and playing it back.

Language Department

Mathematics Department



Mrs. Fisher is demonstrating one of the amazing properties of the circle to her geometry class.

As the years progress, we notice an increasing importance in the use of mathematics in technological development and in everyday life. To satisfy this increasing need for mathematicians, we have an expanding math department that produces many students who rank high in national scholastic merit.

The unit circle is used quite widely as an aid in the understanding of trigonometry in Mr. Storer's class.

This department offers a four-year course of study consisting of the following classes: first year algebra, which introduces elementary equations and proportions; geometry, which covers construction and proofs of various geometric figures, such as triangles, circles, and polygons; advanced algebra, which includes a study of polynomial equations, exponential and logarithmic notations, and the laws of chance and probability; and college mathematics, which is divided into two completely different lines of study because of an experimental course which presents the ideas of trigonometry, exponents, and logarithms in functional forms.

The teachers who make these courses possible are Mrs. Fisher, Mr. Augustine, Mr. Goodwin, and Mr. Storer.

Science Department

The science department at East is divided into three sections: biology, chemistry, and physics.

Biology, the first year of science, deals with the origin, structure, functions, and life history of plants and animals. Usually, the first semester is devoted to the study of animals, and the second, to the study of plants. The biology courses are taught by Mr. Hand, Mr. Sloan, Mr. Johnson, and Mr. Yount.

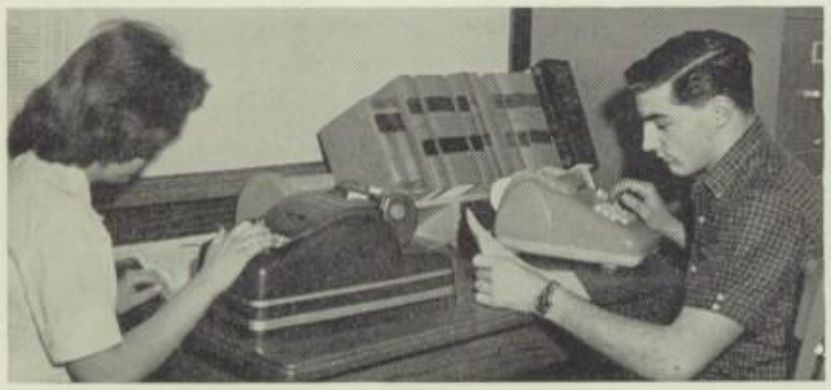
Chemistry is the study of the nature and composition of different kinds of matter and the laws concerning their relations. Last semester, the chemistry department was equipped with a new modern laboratory. Mr. Johns and Mr. Sloan teach the chemistry classes.

Physics, taught by Mr. Rathert, involves the study of matter and energy, and the physical changes in matter.

Mr. Rathert and several students are studying the functions and effects of a static machine in physics.

These students are using the new facilities of the chemistry laboratory in a titration experiment.

Commercial Department



The adding machine is an important instrument in bookkeeping. Paul Bell and Phyllis Bennett are demonstrating it.

The commercial department plays a very important part in the lives of many students. In this department, they learn the fundamentals of typing, shorthand, bookkeeping, arithmetic, and law. As a result, the students have enough training to go out in the business world without further schooling.

This semester, there are eleven instructors in the commercial department. These instructors are Mr. Biddle, teaching commercial law and bookkeeping; Mr. Jarchow, instructing distributive education, merchandising, and acting as Distributive Education Supervisor; Mr. Mauk, teaching bookkeeping and salesmanship; Mr. Pieres, teaching commercial arithmetic, commercial geography, and bookkeeping; Mr. Springate, teaching bookkeeping; Miss Elwood, teaching typing and shorthand; Mrs. Housholder, teaching typing and shorthand; Mrs. McGillivray, teaching typing; Miss Nelson, teaching shorthand and typing; Miss Soutter, teaching typing; and Mr. Wanek, teaching shorthand and typing.

Practice is a must to good typing. Here, students are practicing in their typing class.

Industrial Arts Department

The industrial arts department is very popular as well as important among the boys at East High School. In auto mechanics, the boys learn the parts of the automobile, how the automobile runs, and how to repair it.

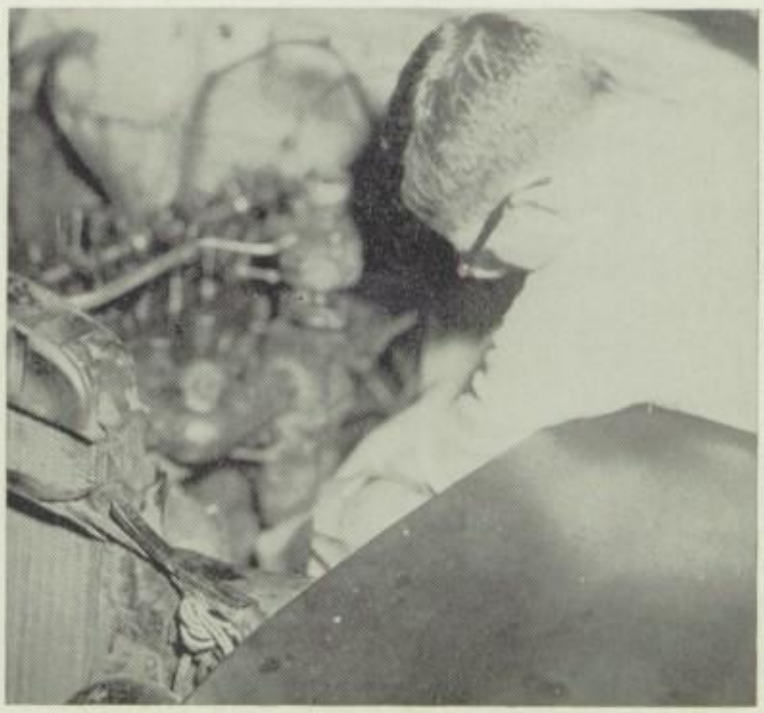
In mechanical drawing, the classes have been making plans for the building of their own homes.

There are six semesters of woodworking available. In Woodworking I, II, and III, the student learns the fundamental skills in tools, machine woodworking, and the turning lathe. Woodworking IV, V, and VI provide further experience in hand woodworking and machine woodworking.

In driver's training, the students learn how to drive and keep control of the car under all conditions. They also learn all of the rules and laws of driving.

The teachers for these courses are Mr. Bergman, Mr. Martin, Mr. Mommer, Mr. Rasmussen, Mr. Tullis, Mr. McAdam, and Mr. Sargent.

These students are getting ready to go out on the roads to learn safe driving.



This boy is learning the different parts of the car and how to repair them.

Music Department

Small vocal groups play an important part in the music department. Here, one of the groups is practicing with Miss Guenther.

The band, one of the sections in the music department, is here practicing in uniform.

The music department consists of two parts—instrumental and vocal.

The instrumental part of this department includes classes in band and orchestra. This semester, members of the band have been getting ready for their performance at the annual Spotlight Parade.

The vocal part of this department includes classes in Girls' and Boys' Glee Clubs, Mixed Chorus, A Cappella Choir, Chorus I and II, and vocal groups.

The performances of the vocal and instrumental groups are numerous and include many different occasions, such as the Memorial Day program, Spotlight Parade, Baccalaureate and Graduation services, Drake Relays Parade, and school assemblies.

Miss Guenther is the instructor in the vocal classes; Mr. Engebretson is the instructor in the instrumental classes.

Department of Arts and Crafts

One of the students in crafts class is learning the steps in using a weaving machine.

The department of arts and crafts offers an opportunity for students to discover their fields of interest. This department offers six semesters of art and six semesters of crafts.

The department includes painting, sculpting, lettering, designing, and wood carving. Duties of this department include illustrations for the Scroll and Quill, the cover for the Quill, scenery for the school plays, posters and signs announcing coming activities, and program covers.

The skills learned in this department help students not only in their jobs but also in college and business.

The teachers in this department include Mr. Hiatt, teaching art; Miss Lundberg, teaching crafts and art; and Miss Skarshaug, teaching crafts.

Two of these students are working on posters while the other two are working with wood.

Two students in the art class are working at the laboratory in the art room with block printing.

Home Economics Department

Mrs. Bell has part of her Homemaking VI class gathered around a table, discussing a reading assignment.

Carol McKay and Janet Anderson are sewing efficiently on the dresses they are making in homemaking.

The department of home economics determines the future years of housewives. It is a wonderful asset to be able to sew, cook, and keep house. Students learn these skills in this department.

At the first of the semester, students learn the fundamentals of being a good housewife, cook, and seamstress, and later apply them by practice.

For the first time at East High, the boys are taking a course in family relations. In this course, the boys can learn more of what makes a good home and happy family.

The teachers in this department are Mrs. Bell, teaching family relations; Miss Grabill, teaching sewing and tailoring; and Miss Wetzstein, teaching cooking and home management.

The girls in this picture are showing the different steps in preparing a meal.

Physical Education Department

The ability for our wonderful athletic teams comes from the physical education department. This department not only teaches our boys and girls the skills in sports, but it also teaches sportsmanship.

Such sports taught in physical education are volleyball, basketball, baseball, football, deck tennis, badminton, and trampoline.

Another part of the physical education department is swimming. Students may take swimming instead of gym. In swimming, students are taught different strokes, diving, and synchronized swimming.

Teachers in this department are Miss Greufe, teaching gym; Miss Spencer, teaching gym and swimming; Mr. Baeth, teaching gym and swimming; and Mr. Rump, teaching gym.

Miss Greufe and one of her classes are discussing the steps in playing a game of badminton.

The boys in this swimming class are learning to use the kick board, which provides a lot of fun in swimming classes.

Spotlight

April 28, 1961, marked the fourteenth anniversary of the Spotlight Parade. It achieved success and recognition this year especially, with its theme, "Campfires and Battleflags — A Civil War Commemoration." However, it could have never been quite so complete without the advice and guidance of the East Des Moines Kiwanians and the leadership of Miss Sylpha Snook. Completing these vital factors were the outstanding talents of our own East High students.

COACH CARLSON
Varsity Basketball

The East High basketball team displayed brilliant coaching and excellent co-operation while giving East High the best season in years, capturing a tie for both City Series and Big Six championships. Under the direction of Coach Marty Carlson, East was acclaimed as one of the best defensive teams in the state. The two top rebounders, Jerry Le Mar and Darrell Aldrich, aided by John Kujac, sparked the defense with their aggressive rebounding. Bob Sayles contributed his share of both rebounds and points. Jack Mishler gave offensive help to the team. Jim Rollins, heretofore an unsung hero, was a standout in his defensive alertness and offensive scoring ability. Finally, the captain and playmaker of the team, Doug Hall, displayed skilled ball handling and calmness under pressure. East High is grateful to the rest of the boys on the team who contributed their part during the season.

To these boys East High says, "Thank you for a wonderful season."

CONSIDER...

A CAREER

...NOT A JOB

When looking ahead to your business life, you want to think beyond just a job. Consider the kind of business career you want and judge the qualities of the company which is a part of that business. Life Insurance is a good business and the Equitable Life of Iowa is a good company — offering so many opportunities for the career man or woman.

Look into the Equitable, and you'll find all of the so-called fringe benefits offered by business generally, plus some that only Equitable has for you. Most importantly, there are so many phases of life insurance

work that your opportunities for advancement and permanency are limited only by your own ability. In the Personnel Office, 1105 Equitable Building, you'll find Miss Pat Bush — discuss with her all the opportunities that exist for you at the Equitable — you may choose your career right now.
